

HARPERS FERRY—BOLIVAR

HOTEL CONNER

This photograph was made about 1900, of two buildings no longer existing. Maybe you can see the door on the right end of the saloon, with a distinct sign stating "Ladies Entrance". Next to the saloon was the hotel proper. In back was the street known as "Hog Alley", but which today is called Potomac Street. Fly nets on the horses indicate hot, dry weather . . . but the dust turned to mud during a rainy spell and the hogs made wallows of the street.

Today, the visitor will see empty space at this location, between the Armorer's House and the display of buried Civil War muskets.

You are invited to add more pleasure to your visit by driving uphill and into the Bolivar section. Or, if traffic control forces you to return to Highway 340, look at the map we have provided. You can turn on Union Street, or go to the intersection atop Alstadt's Hill.

We shall be delighted to welcome you!

DON'T FORGET! The Harpers Ferry - Bolivar EAGLE will someday be a collector's item. Have you had your copy autographed yet?

YOU ARE INVITED to phone 535-2259 and tell Ruth or Stan Hadden your comments, notice, or ad you would like to have us print. We would appreciate the loan of a photograph, too.

IS THERE A KING GEORGE OF 1976 TRYING AGAIN TO SHACKLE FREE MOUNTAIN PEOPLE?

The vote on May 11 last week defeated the county zoning plan by more than two to one. That is proof that the citizens can speak with a loud voice.

Now it seems appropriate to look at the action of the Bolivar Town Council at its last official meeting, Tuesday May 4. We offer the following as our observation at the meeting, listening to what was said by the mayor and the council members:

The recorder read the bills due for payment. Included in them was one for slightly more than \$200 for legal aid provided for two meetings on the Planning and Zoning matter. A motion was made and passed to pay all the bills owed.

After the regular business had been discussed and proper action taken on all matters before the Council, the mayor stated that the Planning Commission chairman is now back from vacation and that meetings shall be set up for commission meetings, and also a meeting for the Council members to go ahead and vote on the question.

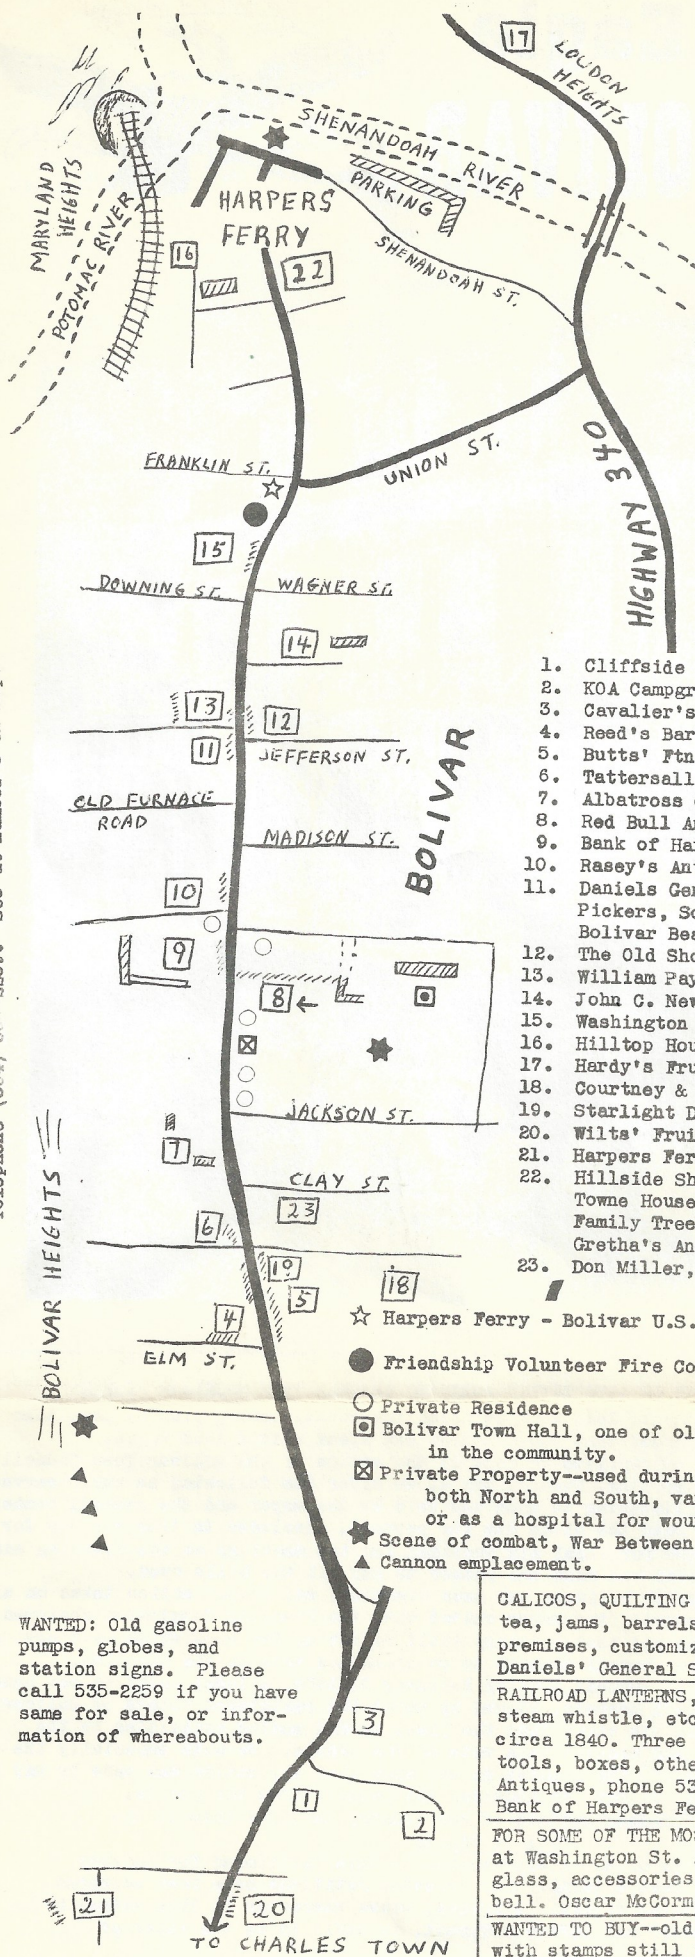

At the official Council meeting February 3, 1976, a legal petition was handed to the mayor and council members, signed by about 158 registered voters of Bolivar. The request was simple--it asked that the planning and zoning activities by the Council be cancelled and brought to a vote of the people. We note especially the part that read "cancel." The minutes do not show that any motion was made by any of the Council to accept, reject, or consider the request from the people.

In 1776 the founding fathers of our country included this in the

Bill Of Rights

"In every stage of these oppressions we have Petitioned for Redress in the most humble terms. Our repeated Petitions have been answered only by repeated injury. A prince, whose character is thus marked by every act which may define a Tyrant, is unfit to be the ruler of a free people."
